This workshop will discuss methods of identifying and accessing datasets for analysis through the Inter-university Consortium for Political and Social Research (ICPSR) and the Roper Center. We will cover:

- An overview of the types of datasets available through ICPSR and Roper
- Tools for searching and identifying relevant datasets, including ICPSR’s Social Science Variables Database and Roper’s RoperExpress Dataset Search and iPoll
- Downloading data, including available files and formats, user accounts, and accessing restricted-use data from ICPSR
- Tools for quick online data analysis, including Roper’s RoperExplorer and ICPSR’s SDA
